World Tourism Day has been held on 27 September each year since 1980. The date marks the anniversary of the adoption of the Statutes of the Organization in 1970, paving the way for the establishment of UNWTO five years later.

ESTABLISHMENT OF WORLD TOURISM DAY

It was at its third session (Torremolinos, Spain, September 1979), that the UNWTO General Assembly decided to institute World Tourism Day, commencing in the year 1980. This date was chosen to coincide with an important milestone in world tourism: the anniversary of the adoption of the UNWTO Statutes on 27 September 1970. The timing of World Tourism Day is particularly appropriate in that it comes at the end of the high season in the northern hemisphere and the beginning of the season in the southern hemisphere.

BACKGROUND

International tourist arrivals at the start of this year were double the level recorded in 2021. In some regions, arrivals are already at, or even above, pre-pandemic levels. The lifting of the remaining travel restrictions, alongside rising consumer confidence, will be important drivers for the sector's recovery, bringing hope and opportunity to many millions of people around the world. World Tourism Day will be celebrated as the shift towards tourism being recognized as a crucial pillar of development and progress is well underway. May 2022 marked the first time the United Nations General Assembly held a special debate on tourism, illustrating the historic relevance of the sector. Tourism is now on the agenda of governments and of international organizations in every global region. At the same time, destinations and businesses are proactively adapting to meet challenges and responsibilities, as illustrated by the wave of signatories to the Glasgow Declaration on Climate Action in Tourism, spearheaded by UNWTO. The theme "Rethinking Tourism" will reflect this. It aims to inspire the debate around rethinking tourism for development, including through education and jobs, and tourism's impact on the planet and opportunities to grow more sustainably.

CONCEPT

For its 42nd edition, World Tourism Day will be hosted by Indonesia, in Bali, a destination at the forefront of reimagining tourism as a pillar of sustainable development. Tourism's International Observance Day will put people at the centre of key discussions. Where is tourism going? Where do we want to go? And how do we get there? The one-day celebration will bring together stakeholders from every part of tourism's uniquely broad value chain - from political and private sector leaders to community representatives, and youth and indigenous ambassadors. The event will develop around a multi-stakeholder panel discussion on "Rethinking Tourism as a Key Element of Recovery", as well as a discussion on "The Tourism We Want", led by local representatives from across Bali's tourism sector. UNWTO's Member States will be invited to amplify the celebrations and key messages, while UNWTO will also promote the event and its central theme of rethinking tourism through its channels and partners.

OBJECTIVES AND INTENDED OUTPUTS

World Tourism Day 2022 will:

- Provide a platform for inclusive dialogue to identify solutions to realize tourism's potential as a vehicle for recovery and transformation.
- Amplify the message of tourism as an inspirational and transformational force, and the role of UNWTO and the whole of the sector in fulfilling this potential.
- Mobilize political will and cooperation to ensure tourism is a central part of policymaking.
- Ask big questions and identify solutions to realign tourism for the future.

Tourism Development Corporation of Punjab (TDCP), is going to be part of this global celebration by organizing an event at World Heritage Site, Shalamar Gardens Lahore on 27th September 2022, in collaboration with Directorate of Archaeology, Punjab.

S&TP's LOADED TOUR TO

Salt Range, Soul Soothing Katas Temples, and Majestic Dharabi Lake

TDCP's Tourism Awareness Program (TAP) and Sales & Tour Promotion (S&TP) team have organized a very attractive one-day tour to Katas Temples, Kallar Kahar & Dharabi lake in the mid of August. This very initiative of Secretary Tourism Punjab who envisioned reviving S&TP section of TDCP and rejuvenating package tours for families, institutions, and the corporate sector in Punjab. The tour was consisting of tourists of different backgrounds and work i.e. overseas Pakistanis, young kids, vloggers, doctors, and their families. Mr. Tahir Mehmood Rana, DGM led the trip along with Mr. Nadeem Butt, Manager, and Miss. Ambreen Rehman, Tour Coordinator (S&TP team). Tour departed early morning from TDCP Double Decker Bus Terminal Lahore. An introductory briefing session between the TDCP team and each participant was conducted before setting for the tour. A Business to Business (B&B) matching among the tourists was shared and encouraged. Tourists were introduced to the services of TDCP in Punjab. Trip participants had also been enlightened about tourism ethics and responsible tourism.

Tour's Highlights

Katas Raj Hindu Temples

While leaving Lahore, drizzling and a pleasant breeze accompanied the tour. Journey through lush green paddy fields and TDCP tourists were so charged and delighted to see the historic Katas Raj Hindu Temples, a complex of several Hindu temples connected by walkways. The temple complex surrounds a pond named Katas which is regarded as sacred by Hindus. The complex is located in the Salt Range. The temples are located near the town of Choa Saidan Shah and are near the M2 Motorway. The temple's pond is said in the Puranas to have been created from the teardrops of Shiva after he wandered the Earth inconsolable after the death of his wife Sati. Group members got thrilled to visit such an incredible religious site with numerous layers of history.

Kallar Kahar

TDCP tourists found themselves in the middle of nowhere, a fairly tale site of Kallar Kahar lake. Among Pakistan's innumerable glories, is the Kallar Kahar Lake. It is famous for its natural gardens, dancing peacocks, spiritual sites, and a saltwater lake. TDCP motel, well set on a lush green hill with breathtaking views of Kallar Kahar Lake mesmerized the trip participants combine with delicious lunch.

Dharabi Lake

Serene, calm, and tranquil Dharabi Lake is among many small dams in the Salt range. The geographical features of Dharabi Lake make it ideal for all types of water sports such as boating, canoeing, and fishing. Owing to this fact, the place hosts different types of family festivals and water sports competitions on both public and private levels throughout the year. This is yet another reason why Dharabi is one of the most popular lakes in Chakwal. TDCP group members missed the joy watching of sunset shades in the crystal water of the lake due to cloudy weather. However, one of the overseas participants admitted the cool breeze was Fresh taken after a long time.

TOY VILLAGE OF PAKISTAN

There is a village Thatta Ghulamka Dheroka (TGD) in Pakistan; It is a few kilometres away from Okara on the Okara-Faisalabad road. While going to the village you pass through a town Gogera—a place where Rai Ahmed Khan Kharral broke the famous British jail during War of Independence of 1857 eventually British Extra Assistant Commissioner (Lord) Berkley was defeated and killed by the resilient locals.

The unique claim of the village to international fame is the dolls and toys made by village women that are collectors delight all over the world. Thatta Kedona is a project, first of its kind, initiated by an NGO named as Anjumane-e-Falah-e-Aama which started a community based Woman Art Centre in TGD in 1992. The aim of this centre is to involve local womenfolk in productive, creative and healthy income generating activities.

Here handmade quality dolls and toys are crafted using all indigenous material and traditional designs based on cultural and folklore themes. Each toy is meticulously handcrafted from a scratch by local women, who carefully paint, embroider and sew together scraps of cloth and wool to shape a delightful work of art. The dolls project has not only been a regular fixture in exhibitions and trade shows worldwide, but has also won numerous awards.

Dolls made in the village have travelled to International Dolls Museum in Amsterdam and also have been put on display in the "Theme-park" at EXPO 2000 in Hanover (Germany) as one of the 767 worldwide projects. Earlier, the dolls participated in International Toy Fair in Nuremberg (Germany). Currently, the dolls are showcased in museums all around the world, from Japan to Turkey to Iceland.

These dolls show how culture goes beyond simple work of art and becomes collaboration among applied and natural sciences as well as other forces that affect our lives.
